

# MAD User Interface: Manual Mode

The screenshot displays the MAD Downloader interface. At the top, it says 'Options Database' and 'MAD - Modis and Aster Downloader'. There are three tabs: 'Modis Products', 'Aster Products', and 'Scheduled Downloads'. The 'Modis Products' tab is active, showing two columns of product buttons: 'Terra Products' and 'Aqua Products'. The 'Terra Products' column contains buttons for various MOD products, and the 'Aqua Products' column contains buttons for various MYD products. A 'Download' button is located below the product grids. Below the 'Download' button is a progress bar showing 70% completion and the text 'Downloading... Please Wait'.

Allows user to select data products (buttons automatically show the product description and sampling rates).

Download button connects MAD to the servers and starts saving data to the local repository.

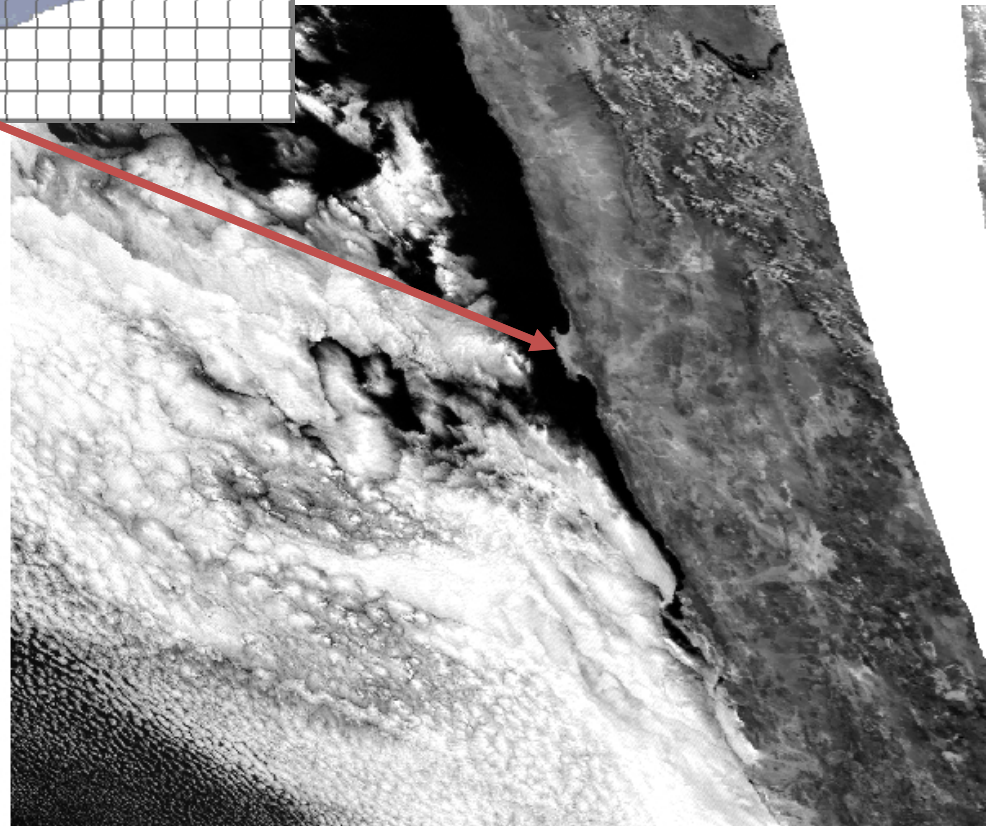

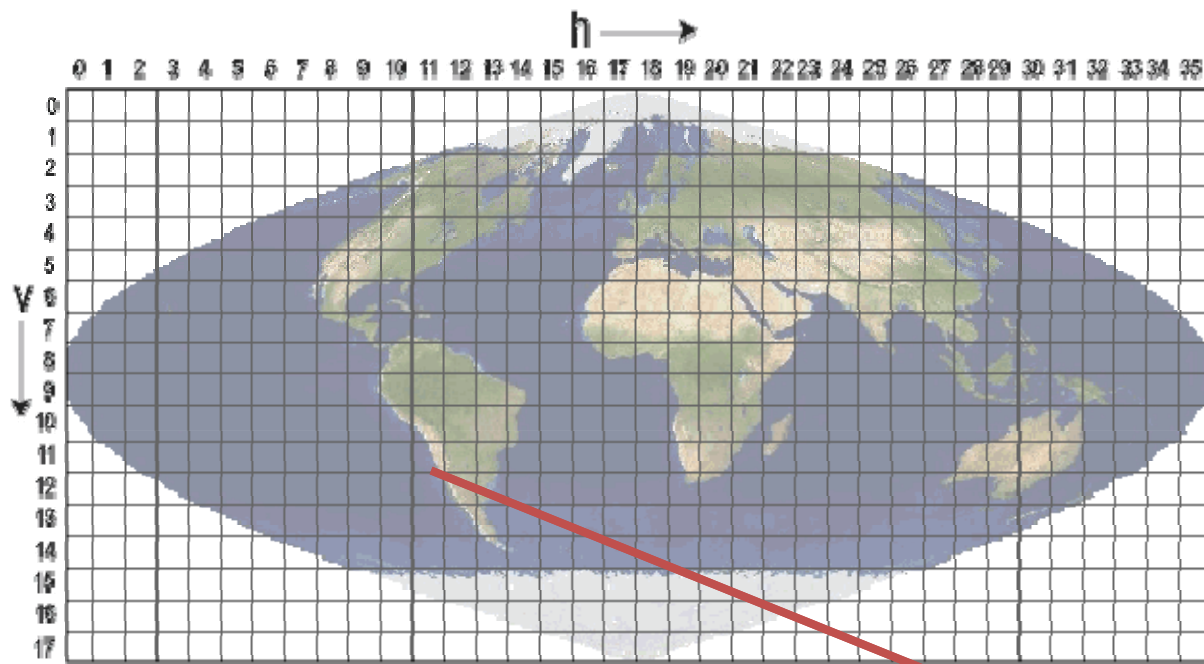

# MAD User Interface: Auto Mode

Allows select and schedule downloads.

Download button connects MAD to the servers and starts saving data to the local repository in continuous mode as new data is available.

# Download Example: MODIS MOD09\_A2015073\_0120\_005\_BAND20

H11V11: Punta Angamos,  
Mejillones.
